Course Code: CSA4305

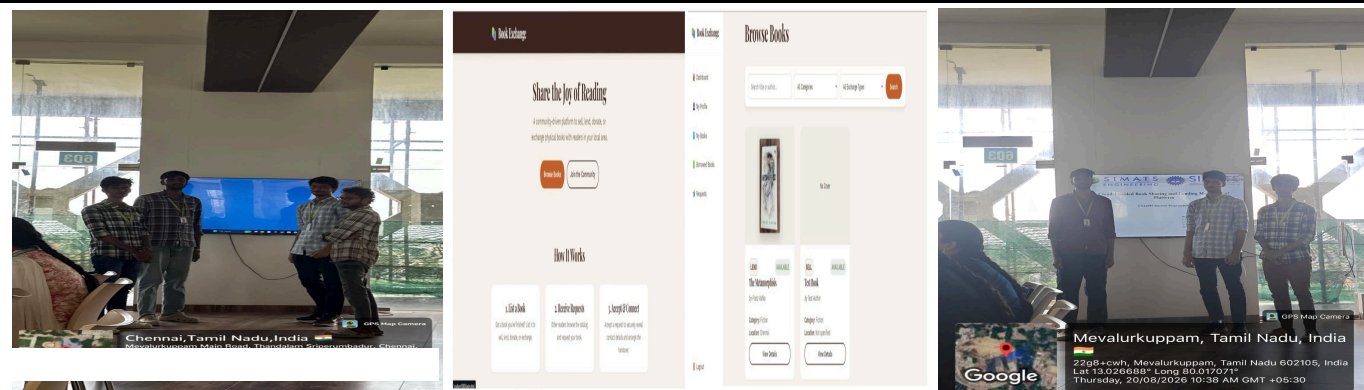

Slot: D

Course Name: Internet Programming

Course Faculty: Dr. D. Sudhagar

Project Title: Cloud-Enabled Book Sharing and Lending Management Platform

Module Photographs: (3 photographs –Module Photo, Individual student contribution module work in the project and presentation image)

Project Description: Module 3: Book Exchange & Lending Management

This module is responsible for managing the exchange, borrowing, and lending of books within the book exchange system. It ensures that users can easily lend their available books, borrow books from other users, and keep track of their transactions.

- The system maintains important information such as book availability, borrower details, lender details, lending status, due dates, and return status. A user-friendly interface, such as a web or mobile application, is provided to display available books, borrowed books, lent books, and transaction details. The interface is designed to be simple, clear, and easy to navigate.
- The module provides notifications and alerts for important events such as successful book requests, lending approval, approaching due dates, overdue books, and completed returns.
